

# Gene[VA] - Population Questionnaire

Elements for the characterisation and description of human populations for use in anthropologic and human peopling history studies

---

**P0. Kind of study:**

Field study in a well-defined population      Answer to questions P2 to P6 (skip P1)  
or  
Other sample (blood donors, migrants, etc)      Answer to questions P1 to P6

**P1. Origin of blood samples:**

Kind of institution providing samples:

If other, please state:

Name and location of institution providing blood samples:

Do all sampled individuals belong to a single well-defined population ?

Unknown

Yes      Answer to questions P2 to P6

No      Please give as much as possible information about the sampled individuals using questions P2 to P6 (additional separate sheets if necessary)

Other information about the sampled individuals ("controls" for disease studies, patients, etc):

**P2. Name of the population and any alternative names known:**

Main name(s):

Other possible name(s):

**P3. Geographic location of the population**

**Name of country:**

**Name of region(s), and/or district(s):**

**Name of town(s) or village(s):**

**Latitude:**

**Longitude:**

**Kind of environment:**

**If other, please state:**

**Is the population under study rural or urban ?**

**If other, please state:**

**Is the population under study isolated from other populations?**

**Please comment your answer:**

**Approximate size of the sampled area:**

**Please provide a local geographic map (except for well known areas):**

**Map included**

**Other comments and/or other relevant geographic information (for example altitude if relevant, name and distance of nearest town, approximate distance between villages if several villages sampled, etc):**

**P4. Language spoken by the population**  
(please specify different spellings)  
Most specific language name(s):

**Linguistic affiliation(s) according to higher levels of classification, such as linguistic family:**

**Suggested references (please specify other source(s)):**

Ruhlen M (1987) A Guide to the World's Languages. Vol. 1: Classification. London: Edward Arnold.

The Ethnologue: <http://www.ethnologue.com/>

.

**P5. Other relevant information (use another sheet if necessary):**

- Prevalence of (a) specific disease(s) in the population:

- Demographic information:

- Social structure and religion(s):

- Historical information:

- Social relationships with other populations:

- Other information:

**P6. Bibliographical references**  
(use another sheet if necessary):

Relevant reference(s) for other genetic, linguistic and/or anthropological studies concerning the same population and/or other populations within the same geographic area :

Name and address of person(s) with detailed anthropological knowledge of the same population and/or other populations within the same geographic area:
